Hi Leslie,

This email is to let you know that, although the Bawana low grade ore stockpiles have been incorporated into the large mine Notice and bond calculations, there are discrepancies between the Division's and the BLM's versions of the plan for these stockpiles. As a result, the BLM hasn't been able to provide a letter concurring with the requested release of the cash bond associated with these piles.

I understand that the BLM end of the process is fairly far along, and we will address the release when we come to an agreement on the reclamation plan for these piles. Thanks. Let me know if there are questions.

Peter
